INTRODUCTION

HISTORY OF HTML:

HTML stands for **Hyper Text Markup Language**.

- It is used to share the information over the internet.
- HTML id developed by Tim Berner's Lee in 1991.But officially in 1993.
- The First version of HTML consists of "18 tags"
- HTML follows certain rules and regulations setup by "**ISO**".
- International Organization for standardization is set of rules and regulation are present in '**SGML**' document.

Versions of HTML

- **HTML-1** version in the year 1993.
- **Html-2** version in the year 1995.
- **HTML-3.02** version in the year 1997.
- **HTML-4.1** version in the year 1999.
- **HTML-5** version in the year 2014.

Features of HTML

- It is easy to Learn.
- It is a tag based language.
- HTML is supported by multiple browsers.
- First web browser is Netscape navigation which was developed by the "Mosiac".
- It is a portable language.
- **WORA** stands for 'write once run anywhere'

Limitation of HTML

- HTML has less designing capabilities.
- It is dependent on other technology such as CSS in order to develop well designed Webpages.
- HTML has no programming capabilities.
- Using HTML and CSS we can develop only static Web page.
- In order to write the HTML code required an editor such as VS Code, Notepad, Eclipse.
- In order to execute the HTML code we required Web browsers.Like Chrome, Firefox, edge, Opera Safari .

CSS

- **CSS** stands for **Cascading Style Sheets**.
- It was developed by W3C to add stylings to the HTML elements.
- W3C stands for World Wide Web.com

Versions of CSS:

- CSS-1 (level-1) in the year 1996.
- CSS-2 (level-2) in the year 1998.
- CSS-3 (level-3) in the year 1999.

Why do we required CSS ?

- Since HTML has less designing capabilities we cannot create well designed or most appealing Websites.
- Using HTML we cannot add style, animation and transitions to the Webpage.
- Therefore we require CSS to create well designed Webpages.

Advantages of CSS

- It allows to add styles, animation and variouses effects to the Webpage.
- It allows us to develop the Webpage rapidly. It is also know as RAD (rapid application Developer).
- It allows us to separate from formatting develop page to the presentation of Webpage.
- It allows to create well designed Websites.

Limitations of CSS

- Using CSS we can perform static styles for the Webpages.
- In order to create dynamic styling for the Websites. We must make use of scripting language such as JavaScript and Libraries of JavaScript.

Types of CSS:

1. Inline CSS
2. Internal CSS
3. External CSS
4. Default Browser CSS

Inline CSS:

Defining all the CSS properties within the style attribute inside the opening of the tag is referred to as Inline CSS.

Internal CSS:

Defining all the CSS properties within <style> inside the HTML document is referred to as Internal CSS.

External CSS:

Defining all the CSS properties within as external Script or File with an extension CSS is referred to as External CSS.

- In order to link external CSS file within the HTML document we must use of <link>.
- The value for the 'ref' attribute should be 'stylesheet'.

GQT OFFICIAL SITE(CLONE)

Scope of the document

Global Quest Technologies (GQT) is an online platform dedicated to providing in-depth insights, resources, and services related to cutting-edge technologies and their real-world applications. The scope of the GQT website includes:

Technology News and Trends: GQT will offer the latest news, updates, and trends in various fields of technology, such as artificial intelligence, blockchain, cybersecurity, biotechnology, and more.

Educational Resources: The website will provide comprehensive educational materials, including articles, tutorials, and video content, to help both beginners and experts understand complex technological concepts.

Product and Service Reviews: GQT will feature unbiased reviews and assessments of technology products, software, and services, helping users make informed decisions.

Industry Insights: The website will delve into specific industries and examine how technology is transforming them. This includes case studies, interviews with industry experts, and analysis of technology's impact on sectors like healthcare, finance, and manufacturing.

Community and Collaboration: GQT will foster a community of tech enthusiasts, professionals, and innovators, allowing them to connect, share ideas, and collaborate on projects.

Events and Webinars: The website will promote and host webinars, conferences, and events related to technology, providing a platform for networking and knowledge sharing.

Technologies Used

- HTML5
- CSS3

Why Global Quest Technologies - GQT?
Meet and Mingle with Industry Experts
Interact directly with experts. Get proper training and answers to all your questions regarding the industry and its essentials.
360 ° Placement Assistance
We provide our students with complete assistance with the placement, from preparing for the interview to finding the right roles until they land a great job.
Real-time Corporate Merge
Build and enhance your profile and get real-time corporate experience to understand the operations and applications in the industry.
Personalised Mentorship
With a personalised approach to training, we provide our students with the mentorship for their personal development as an expert.

Why Amazon Web Services Course?

<p style="margin-top:2%; color:rgb(70, 70, 112); font-family: 'Segoe UI', Tahoma,

Geneva, Verdana, sans-serif;font-size:large;">

Amazon Web Services course by Global Quest Technologies is a course designed for building the foundation of an individual as an AWS developer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.

Our AWS course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.

With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

4-Months Course Duration
We cover the requirements for landing a great job from the foundation to the finish.
100% Placement Assistance
Providing complete assistance with the preparation to crack the interviews
Placement Opportunities
We are assisting in finding better and more relevant job openings.
320+ hours of Live Training Interactive Sessions
Thorough guidance ensures the students gain the best out of the course.
Why Amazon Web Services Course?
Amazon Web Services course by Global Quest Technologies is a course designed for building the foundation of an individual as an AWS developer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.
Our AWS course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.
With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

Radha
I enrolled for Unified Course 3 and i think it was the right choice
that I made. I have been able to have a grasp on the course. Also I was
able to get through assistance with my placement. They also helped
me to work on my soft skills and personality development.

Why CCNA Course?

<p style="margin-left:5%;margin-top:2%; color:rgb(70, 70, 112); font-family: 'Segoe UI', Tahoma,

Geneva, Verdana, sans-serif;font-size:large;">

CCNA course by Global Quest Technologies is designed to build an individual's foundation as a network engineer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.

Our CCNA course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.

With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

Why CCNA Course?
CCNA course by Global Quest Technologies is designed to build an individual's foundation as a network engineer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.
Our CCNA course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.
With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that

Radha
I enrolled for Unified Course 3 and i think it was the right choice
that I made. I have been able to have a grasp on the course. Also I was
able to get through assistance with my placement. They also helped
me to work on my soft skills and personality development.

Why CCNA Course?

<p style="margin-left:5%;margin-top:2%; color:rgb(70, 70, 112); font-family: 'Segoe UI', Tahoma,

Geneva, Verdana, sans-serif;font-size:large;">

CCNA course by Global Quest Technologies is designed to build an individual’s foundation as a network engineer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.

Our CCNA course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.

With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

I have been able to have a grasp on the course.

Also I was
 able to get through assistance with my placement.

They also helped
 me to work on my soft skills and personality development.

Why CCNP Course?

<p style="margin-left:5%;margin-top:2%; color:rgb(70, 70, 112); font-family: 'Segoe UI', Tahoma,

Geneva, Verdana, sans-serif;font-size:large;">

CCNP course by Global Quest Technologies is designed to build an individual's foundation as a network engineer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.

Our CCNP course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.

With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

Thorough guidance ensures the students gain the best out of the course.
Why CCNP Course?
CCNP course by Global Quest Technologies is designed to build an individual's foundation as a network engineer. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.
Our CCNP course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.
With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

Ramya
Radha
I enrolled for Unified Course 3 and i think it was the right choice
that I made. I have been able to have a grasp on the course. Also I was
able to get through assistance with my placement. They also helped
me to work on my soft skills and personality development.

Why DevOps Course?
The DevOps course by Global Quest Technologies is designed to build the foundation of an individual as a DevOps professional and expert for various roles. Along with that, they also get application-level experience through projects and practicals. The students get the relevant resources, training, and insights to help them acquire proper knowledge in the field and outshine the crowd as professionally backed up individuals.
Our DevOps course is designed by industry experts keeping in mind the requirements and necessities for an industry-ready individual. Our experts provide thorough and personalized guidance that caters to the individualistic needs to grow and learn.
With G.Q.T., we ensure that the students are well-through with the theoretical insights and capable of hands-on implementation of the knowledge they acquire. Our courses are accompanied by relevant aptitude training and projects that would give the students a clear idea of the practical use of what they learn.

```

Course Overview

<hr style="background-color:rgb(70, 70, 112); width:60%;height:0.2%;margin-top:2.8%;">

4-Months Course Duration

<p style="margin-left:10%; color:rgb(70, 70, 112);font-size: large;font-family: 'Segoe UI', Tahoma,

Geneva, Verdana, sans-serif;">

We cover the requirements for landing a great job
from the foundation to the finish.

100% Placement Assistance

<p style="margin-left:10%; color:rgb(70, 70, 112);font-size: large;font-family: 'Segoe UI',

Tahoma, Geneva, Verdana, sans-serif;">

We cover the requirements for landing a great job
from the foundation to the finish.

Placement Opportunities

<p style="margin-left:10%; color:rgb(70, 70, 112);font-size: large;font-family: 'Segoe UI', Tahoma,

Geneva, Verdana, sans-serif;">

We are assisting in finding better and more relevant
job openings.

320+ hours of Live Training Interactive Sessions

<p style="margin-left:10%; color:rgb(70, 70, 112);font-size: large;font-family: 'Segoe UI',

Tahoma, Geneva, Verdana, sans-serif;">

Thorough guidance ensures the students gain the
 best out of the course.

```
</div>
<div>
<p style="margin-left:5%; color:black;font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sansserif;font-weight:500;font-size:x-large;">
Why MEAN Stack Course?</p>
<p style="margin-left:5%;margin-top:2%; color:rgb(70, 70, 112); font-family: 'Segoe UI', Tahoma,
Geneva, Verdana, sans-serif;font-size:large;">
In the MEAN Stack course, the candidates will be
exposed to the backend database called MongoDB.
Students would also be learning and working on
Express.js and Angular.js. Along with it, they
would get experience working with Node.js, a
potential top-notch technology being used by
the UI/UX developer in the present day. The
developers training in the MERN Stack course
would be able to give the beautification factor
for the web pages and also create interactive
windows for the users to work with</p>
